Complete Portfolio Slide Set --- Extra Credit

Last Revision: February 29, 2008

The icing on the cake: create and turn in a set of slides that you could use to present your results to an audience – of your classmates, lab group or at some other professional association.

This is a nice way for you to summarize the essence of what you have accomplished in this project.

About 10 or so slides should do the job nicely. You should be able to assemble these directly from your final report.

… And you get extra credit!

Congratulations on a JOB WELL DONE!!

Turn-in Instructions

Subject line: Turn-in of Complete Application Portfolio– "your name"
Name your file: "last name – topic – complete.
