

**WRITING ASSIGNMENT 2 – REVISION**  
**18.100C**

**Goal.** The review process is a conversation between author and reviewer. In this assignment you'll use your reviewers' comments to refine and improve your second writing assignment.

**Assignment.** Your two peer reviews will be available. Incorporate your reviewers' comments into a new version of your second writing assignment. You should take the reviews seriously and make an effort to respond to any negative criticism you received. That said, as author you maintain control over the content of the paper; choose your response wisely.

**Technical details.** Submit your `.tex` file *and* a compiled `.pdf` file. As always, your grade will be based on clarity of exposition, mathematical correctness, and readability of L<sup>A</sup>T<sub>E</sub>X in the final version of your paper. Additionally, you will be graded on your ability to effectively respond to criticisms you received during the peer review process. The assignment is worth 35 points.
