15.060 Data, Models, and Decisions
Homework 5
Due: WEDNESDAY, October 29, 2014

1. Exercise 7.2 of the DMD textbook. Answer questions (a), (b), and (c).

2. Exercise 7.7 of the DMD textbook. Answer question (a) only, where you should write down (or type) your formulation of the optimization problem. You are not expected to solve this linear optimization problem, only to construct the formulation of the model.
